

## **Optec Launches its First Video of Multi-fibers Engineering Excellence**

**HONG KONG, March 24, 2015** – Optec Technology Limited, a leader in fiber optic interconnect and assembly products, today announces the celebration of its growth and expansion with launch of its corporate video.

This video gives an inside view of Optec. It introduces Optec's advanced production facilities, and elaborates the five essential elements that build Optec's engineering excellence. They are Precision Fiber Cleaving, Unique Engineering Process, Advanced Process Control, Sound Engineering Judgments and Proprietary Production Knowhow.

In this video, Optec will demonstrate its commitment on sticking close to technological needs on network cabling in nowadays Big Data era. It introduces the latest technology on MT-based multi-fibers interconnect solutions for various applications; from embedded optical module interconnect solutions for Silicon Photonic technology, to harsh environment multi-fibers solution.

Optec creates value for its customers by transforming its Multi-fibers Engineering Excellence into the latest solutions offering. It makes Optec be one of the world's leading fiber termination solutions providers. Optec's video is now available on <http://www.youtube.com/watch?v=tXzWNBcUW1M>.

### **About Optec Technology Limited**

Optec Technology Limited is the world's leading fiber termination solutions provider which serves extensive optical networks throughout public and private sectors. Its wide variety of multifibers products includes board mounted solution for embedded optical modules, high-density 40G/100G applications, to MT-based outdoor harsh environment solutions. Please visit [www.optec.com.hk](http://www.optec.com.hk) for more information.
