

Optec to Showcase the Newest Technology on MT-based Multi-fiber Interconnect Solutions in OFC 2016

HONG KONG, February 10, 2016 - Optec Technology Limited, a leader in fiber optic interconnect and assembly products, today announces it will be participating at OFC 2016 in Anaheim during March 22 to March 24.

During the Exhibition, Optec will showcase the newest technology on MT-based multifibers interconnect solutions on various applications, from board level Silicon Photonics application to ultra-high density usage for data centers and enterprise networks. At the show, Optec will demonstrate its commitment on sticking close to technological needs on connectivity, and to highlight how the evolved technology revolutionized the network cabling in nowadays Big Data era.

Showcase Products:

- MXC™ Cable Assemblies for Embedded Optical Modules
- PRIZM® LightTurn® Cable Assemblies
- MT-based Active Optical Cable (AOC) Sub-assemblies
- MT-based Ultra-high Density Cabling Solutions
- IP68 MTP/MPO Harsh Environment Connectors and Assemblies

About Optec Technology Limited

Optec Technology Limited is the world's leading fiber termination solutions provider which serves extensive optical networks throughout public and private sectors. Its wide variety of multifibers products includes board mounted solution for embedded optical modules, high-density 40G/100G applications, to MT-based outdoor harsh environment solutions.
